Subject: RE: Area 40 FS Meeting
Attachments: removed.txt; Responst to Response to Comment Area 40 FS.pdf

Chris: thank you for the meeting last Friday regarding the Area 40 FS. It was very helpful. I have attached some comments regarding Aerojet's response to Regional Board comments on the draft Area 40 FS. In general, those Aerojet responses to comments for which I have not provided a comment this time around are acceptable. Among those that I have not responded to are several responses to our comments regarding expansion of remedial areas to accommodate risk to groundwater issues that we discussed at the meeting. For those comments, Aerojet is crafting a response that will provide additional justification for including or not including the additional footage within the proposed remedial area. The concepts discussed at the meeting appear valid and we wait for your revisions.

I am having an independent semi-review of the FS this week in which I have tasked the reviewer to come up with what they would propose as a remedy. I will use that information to ascertain if my proposed remedy presented in my comments on the FS should be tweaked.

Subject: Area 40 FS Meeting

Hi Everyone – I would like to begin pushing forward on the Area 40 FS (at least resolve all State issues). Please also provide availability for the week of April 17 an April 24 for a 2 hour meeting at our Pyrites Way office.

Attached are the draft FS and responses to State comments. Please refresh on these comments and responses in preparation for our meeting.

Thanks! Chris

Christopher M. Fennessy, P.E.
